2004 Tax Abatement Report

April 27, 2004

Board of Commissioners
Muskegon County, Michigan

Honorable Commissioners:

The Muskegon County Equalization Department has prepared this tax abatement report as requested by the County Board of Commissioners. The report contains the valuations of tax-abated property for each unit of government in a tabular format. It is the result of a collaborative effort involving all 23 assessing jurisdictions in Muskegon County. The amounts reported by these jurisdictions have been examined and internally audited. The report focuses on the value of all real and personal property subject to Industrial Facility Tax (i.e. Act#198). Obsolete Property, as well as Enterprise and Renaissance Zone Certificates, are also exempt from ad valorem taxation and presented separately.

For 2004, the Industrial Facility Tax accounts decreased from \$197,843,700 to \$183,327,800 in State Equalized Value (i.e. SEV). This indicates a 7% net decrease. As for volume, there are now 341 accounts compared to 368 accounts in 2003.

The value of all expired abatements is transferred to general ad valorem property. The abated properties now represent 3.8% of the taxable value of general ad valorem properties. Last year they represented 5.4%. The following table documents the trends.

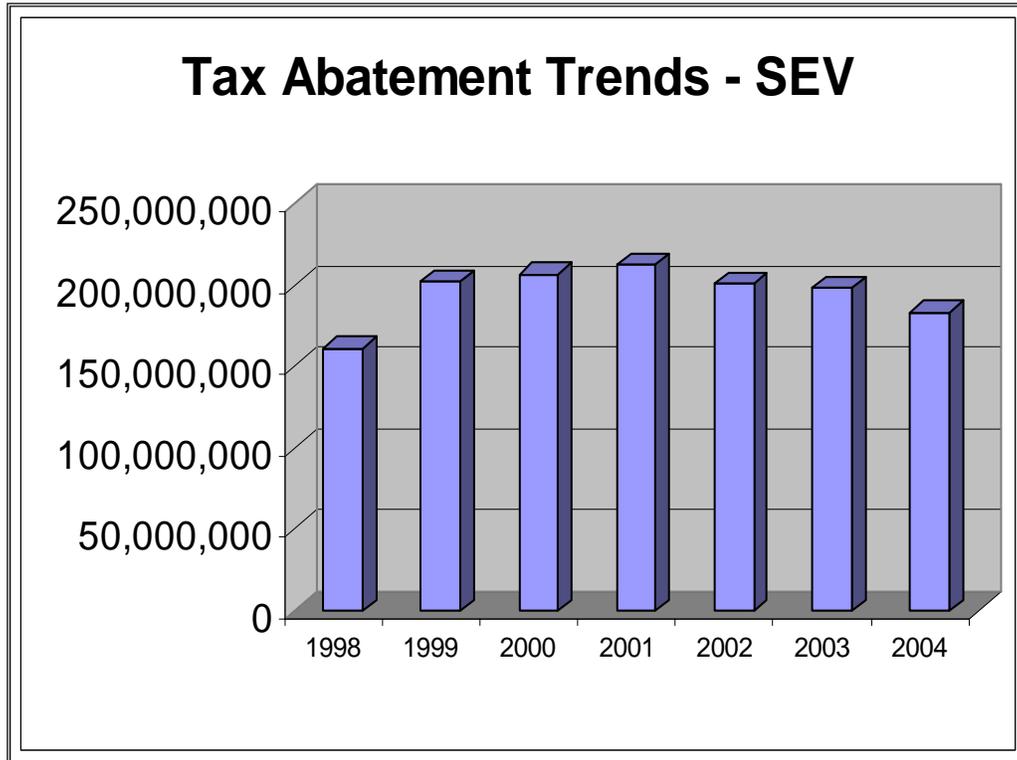

Table A

Muskegon County Tax Abatement History

Also, all values are subject to review and revision by the Michigan State Tax Commission until October 1, 2004. There has been no significant change in the process this year. I would like to remind you that the taxable value limitation also applies to tax abatement properties. All Commercial Facility Tax (i.e. Act#255) exemptions expired December 31, 1997; all Renaissance Zones became effective December 31, 2000; and Obsolete Property Abatements became effective December 31, 2001. Additionally, all expired abatements are incorporated in the equalization study process to verify proper transfer to general ad valorem property taxes.

I must commend the professionalism of our local assessors. This year there were very few problems detected during the preparation of this report.

Respectfully submitted,

Clifford A. Turner, Director
