## **No Body Contact Advisory Issued for Four Mile Creek**

County of Muskegon Wastewater reported a break in a municipal sewage line releasing approximately 130,000 gallons. Four Mile Creek may have been impacted by the spill. The spill occurred near a pumping station located on Quarterline Rd. in Muskegon Township. Public Health – Muskegon County is currently sampling the creek for E. coli and phosphorus. Public Health – Muskegon County is recommending no body contact or fishing in the creek as a precautionary measure until we can assure the E. coli and phosphorus count meets acceptable levels.
